DETAILED ACTION

*Allowable Subject Matter*

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-24 are allowable over the prior art made of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a scanner unit comprising a carriage provided with a frame extending in a first direction along a document surface of a document set and an optical member mounted on the frame for illuminating the document surface and guiding light reflected from the document surface to light receiving means; a rail extending along the document surface in a second direction perpendicular to the first direction, and mounting the frame such that the frame can slide in the second direction; a first inhibiting element having a slit which receives a part of the frame when the carriage has slid along the rails to a hold position, said first inhibiting element inhibiting a movement of the frame when the carriage has slid to the hold position in the first and second directions; and a second inhibiting element for holding another part of the frame together with the rail when the carriage has slid to the hold position, thereby inhibiting a vertically upward movement of the frame, respectively, as set forth in claims 1,7,13,19 including all of the features recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*
